

# MEMO

To: Principals  
From: UIL  
Date: February 19, 2008  
Subject: District Certification Date for Track and Field

Effective on this date, the UIL has established April 16, 2008 as the certification date for track and field district meets and/or area meets. Districts are prohibited from scheduling track and field meets during the UIL Academic Regional Meets on April 10, 11, 12, 2008. Furthermore, district meets should not be scheduled in conflict with Regional Music competition.

The original calendar indicated the last date for district track meets was April 9, 2008. This shortened week was necessary because of conflicts with TAKS testing dates and Senate Bill 658, as well as the UIL Regional Academic Meet.

Schools who hold their district meets between April 14-16, could still participate in a regional qualifiers meet provided the meet begins no earlier than the end of the last school day of the week.
